### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Economou on 9-1-2009.

The application has been amended as follows:

Claim 1 is allowable. The restriction requirement among inventions I-VI, as set forth in the Office action mailed on 9-15-2008, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.**

Claims 3-8, directed to non-elected inventions are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. However, claims 9 and 10, directed to a non-elected invention remain withdrawn from consideration because they do not require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Art Unit: 2854

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

In claim 1:

a. line 12, the phrase -- to hold the leading edge of the printing master -- has been added after the word “cylinder”, first occurrence;

b. line 18, the phrase -- to hold the trailing edge of the printing master -- has been added after the word “position”; and

c. line 26, the phrase -- to release the trailing edge of the printing master -- has been added after the word “cylinder”, first occurrence.

In claim 2, last line, -- to release the leading edge of the printing master -- has been added after the last word “position”.

Claim 3 has been canceled because the subject matter as recited has already been included in independent claim 1.

In claim 4, first line, the reference numeral “3” has been changed to -- 1 -- due to the cancellation of claim 3.

Art Unit: 2854

Claims 9 and 10 have been canceled because they are not proper dependent claims of claim 1 and they do not require all the limitations of claim 1 as required.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ren L. Yan whose telephone number is 571-272-2173. The examiner can normally be reached on 8:30am-5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Judy Nguyen can be reached on 571-272-2258. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
